PRODUCT DESCRIPTION

The Formax AutoSeal FD 2080 is a continuous form folder sealer that allows operators using high capacity impact printers to benefit from all the advantages that pressure sensitive mailers offer. Using pressure seal paper allows you to process these documents through the folder sealer. The AutoSeal FD 2080 folder sealer exerts pressure on the pre applied adhesive strips on the paper, effectively sealing it shut. This high volume machine integrates with the Formax FD 680 industrial burster to deliver a high level of performance.
