PRODUCT DESCRIPTION

Formax Desktop Folder Inserter FD 6100 The Formax FD 6100 Folder Inserter makes it possible for any business to automate their mailings. With the FD 6100, any size company can enjoy the benefits of automated folding and inserting. A LARGE clearly marked control panel with step by step instructions easily guides operators through setup and operation. Up to nine 9 jobs can be programmed so that recurring and frequent jobs can be processed with the push of a button. The FD 6100 Folder Inserter can process a variety of documents up to 14 in length including, checks, invoices, newsletters and business reply envelopes BRE . Two sheet feeders and one insert BRE feeder allow for a number of jobs to be automatically processed including 1 sheet; 1 sheet and a BRE; 2 sheets; or 2 sheets and a BRE. The FD 6100 multiple feed stations allows you to make single sheet mailings work for you by using the second feeder to insert a direct marketing piece. COMPACT and POWERFUL The FD 6100 folds and inserts at speeds up to 23 pieces per minute and can hold up to 100 sheets inserts in each feeder. The semi automatic mode folds up to five stapled or unstapled sheets of 20 lb. bond paper in one motion. The document feeder sway mode maximizes output by filling both sheet feeders with the same documents. When the first feeder empties the second automatically starts feeding without interruption. This feature allows for a total sheet feeder capacity of up to 200 sheets. To ensure the integrity of mailings the FD 6100 has a Double Document Detector that will automatically detect doubles and other potential misfeeds. EASE OF OPERATION The FD 6100 is designed for anyone to use. OPTIONS Cabinet; Mailing Machine Interface; FD 400 Jogger which can reduce static electricity from forms and align them for proper feeding. WARRANTY Machines, parts and
