PRODUCT DESCRIPTION

The FD 390 high speed document folder is ideal for mail rooms, print shops, mail houses or virtually any other high volume application. The bottom in feed air system allows for continuous loading of forms while the extended out feed stacker cuts down on the unloading of folded documents. Both features decrease processing time and increase efficiency. A chart for seven common fold settings is located on the out feed stacker for easy setup. Microadjustment knobs are used to fine tune the stopper position making crisp and accurate folds every time.
