### PRODUCT DESCRIPTION

Martin Yale INTIMUS Air Feed Paper Folder 959AF with FAIM The Martin Yale 959AF Air Feed AutoFolder operates at a variable speed up to 18,000 sheets per hour. There are six pre set fold styles available, as well as the ability to set custom folds. The quick release journal shafts facilitate easy set up for folding, perforating, scoring, and slitting. The Martin Yale 959AF paper folder includes one 7 tooth per inch perforating wheel and two scoring wheels. The bottom feed mechanism allows for the continuous reloading of documents. FEATURES Folds coated or two sided documents without smearing or slipping Automatically feeds, folds, and collects a stack of documents also slits, scores and perforates Bottom feed allows for continuous reload of documents without stopping the machine Simplified adjustment for folding 8 1 2 x 11 , 8 1 2 x 14 and 11 x 17 sheets Creates a variety of different folds letter, half, z fold, double parallel, right angle, baronial and custom folds Adjustable within a fold range of 1 3 4 to 13 on the 1st fold and 2nd fold to allow for customized folds Operates at a variable speed of up to 18,000 sheets per hour Handles sheet sizes from 3 x 3 1 4 to 14 x 18 Handles paper from 16 lb. bond to 70 lb. Bristol Quick release journal shafts facilitate easy set up for perforating, scoring and slitting Includes on 7 tooth per inch perforating wheel and 2 scoring wheels Optional 3 and 14 tooth per inch perforating wheels and slitting wheel also available Dimensions 43 x 24 x 32 Weight 220 lbs. Add 200 Shipping Handling Heavy Item Ships by Freight Truck With FAIM you get Installation by a factory authorized installer Application and use training by a factory installation installer Up to two additional, no charge maintenance calls during the first year by a factory authorized installer Replacement parts free for one year from the date of installation

except for consumables such as rubber wheels and rollers; slitting, perforating and scoring wheels; blades, cutting sticks; etc . Why FAIM might make sense for you If you sell consumables, such as paper or forms, you can now sell bursters, decollators, folders and cutters to your customers No need for your organization to develop the servicing skills required to maintain complex machines Allows minimal involvement and frees you to pursue other more profitable or desirable opportunities Even at an installation where an adjustment might be necessary, factory authorized installers are trained to handle that eventuality In the unlikely event a machine does not function to the specifications at installation, Martin Yale will repair or replace the unit. Increased customer satisfaction, as there is less room for operator error an avoidable cause of customer dissatisfaction with equipment. NOTE The FAIM Program will aid in the proper installation, training and operation of our equipment, however, it is no substitute for proper application selling. Martin Yale warrants its equipment will operate within published specifications, however, specific applications cannot be guaranteed. If an end user has a unique application, simply supply Martin Yale with samples. We will test the application before a buying decision is made.
