With FAIM you get Installation by a factory authorized installer Application and use training by a factory installation installer Up to two additional, no charge maintenance calls during the first year by a factory authorized installer Replacement parts free for one year from the

date of installation except for consumables such as rubber wheels and rollers; slitting, perforating and scoring wheels; blades, cutting sticks; etc . Why FAIM might make sense for you If you sell consumables, such as paper or forms, you can now sell bursters, decollators, folders and cutters to your customers No need for your organization to develop the servicing skills required to maintain complex machines Allows minimal involvement and frees you to pursue other more profitable or desirable opportunities Even at an installation where an adjustment might be necessary, factory authorized installers are trained to handle that eventuality In the unlikely event a machine does not function to the specifications at installation, Martin Yale will repair or replace the unit. Increased customer satisfaction, as there is less room for operator error an avoidable cause of customer dissatisfaction with equipment. NOTE The FAIM Program will aid in the proper installation, training and operation of our equipment, however, it is no substitute for proper application selling. Martin Yale warrants its equipment will operate within published specifications, however, specific applications cannot be guaranteed. If an end user has a unique application, simply supply Martin Yale with samples. We will test the application before a buying decision is made.
