### PRODUCT DESCRIPTION

Shear Tech Automatic Check Jogger MJ 1000  
Shear Tech MJ 1000 Automatic Check Jogger, Jogging tray holds up to 250 checks, Very small size 2.8 W , 6.4 H , 7.4 D INCHES, One touch, automatic, timer controlled operation, Automatic or manual control of jogging time. The MJ 1000 is a small, table top, automatic check jogger. An important part of any Check 21 Branch Item Capture solution. The importance of check joggers in check processing centers has been known for many years. You can find a check jogger near almost every high speed reader sorter. There is a perfect reason for that. Jogging a batch of checks for a few seconds in the check jogger, perfectly aligns bottom and side edges of checks which reduces chances of check jamming and double feeding. We designed our MJ 1000 Check Jogger specifically for smaller banks, branches, community banks, and credit unions, with lower volume of checks. Who should use the MJ 1000 Check Jogger Anyone who uses automatic check Scanners, Reader Sorters, MICR Encoders and Endorsers with up to 250 checks per load. Good examples are Canon CR 180 document imaging system, Digital Check TellerScan family, and Unisys MyVision X check scanners. Features Jogging tray holds up to 250 checks. Very small size 2.8 W x 6.4 H x 7.4 D INCHES One touch, automatic, timer controlled operation. Automatic or manual control of jogging time. 100 240VAC, 50 60Hz Voltage Current 0.5 Amp Max Dimensions WxHxD 2.8 x 6.4 x 7.4 Inches Weight 3.6 Lbs. Shipping and Handling are additional.
